Join us Saturday afternoons (3:00 PM or later) at Hive13 (see: [hive13.org](http://hive13.org)) to learn computer programming. We'll start with HTML and JavaScript and at times follow the book Effective JavaScript (by David Herman... \$39.99 at MicroCenter). The course will be lead by Daniel Hollingsworth ([dan@machinepublishers.com](mailto:dan@machinepublishers.com)). The course has no fees. Just show up.
